

A scatter plot showing the relationship between the number of species (S) on the x-axis and the number of individuals (N) on the y-axis. The plot displays data points for three different species richness metrics: S1 (red circles), S2 (cyan circles), and S3 (green circles). The data points are scattered across the plot, with a general trend of increasing N as S increases. The x-axis ranges from 0 to 10, and the y-axis ranges from 0 to 100. The plot is titled 'S vs N'.
